Why would anyone want to commit to this alternative?

Isn't it just 'school at home' or can it be much more?

Is there a curriculum to follow? What kind of support is out there?

What about 'socialisation'? What are the pitfalls?

- CHALLENGE** your thinking on the meaning of 'Education'!
- CONSIDER** a lifestyle of discoveries, relationships, flexibility, freedom and fun!
- BE INFORMED** about some popular misconceptions!
- PUT AWAY** traditional and experiential views of 'Education'!
- CLEAR AWAY** assumptions and come with an 'outside-the-box' mind!

This is one of the most important decisions a parent can make, often at a stressful time.

We understand! This is the beginning of a marathon, not a race!
